REMARKS

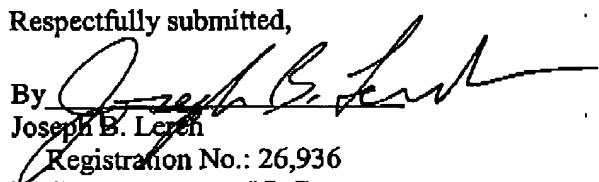

This patent application presently includes claims 1-3, 5-7 and 10-16. There has been no examination of the claims on the merits.

The claims are amended to define audio communication devices, instead of control devices and to refer to a voice signal, instead of a control signal. Claims 1-3 and 5-7 have also been amended to eliminate multiple dependencies, and new claims 10-16 have been introduced to restore some of those dependencies.

Early examination on the merits is respectfully solicited.
